TRANSFORMING CANCER CARE IN AFRICA AND BEYOND.

ISRT 2026 | CORPORATE SPONSORSHIP & PARTNERSHIP PROSPECTUS

ABOUT THE SYMPOSIUM

The International Symposium on Radiopharmaceutical Therapy (ISRT) 2026 is a premier regional program dedicated to addressing current barriers, exploring new opportunities, and shaping the future of theragnostics and diagnostic imaging across the African continent. Organized under the WARMTH Initiative in collaboration with the International Centers for Precision Oncology (ICPO) and the Chris Oyakhilome Foundation

(COFI), the event is proudly hosted at Loveworld Medical Centre, Ikeja, Lagos, Nigeria.

The two-day program (28–29 August 2026) features a hands-on pre-symposium workshop in radiopharmacy and clinical theragnostics, followed by a full scientific symposium led by an internationally recognized committee of experts from Africa, Europe, and beyond. With expected attendance of 70–100 professionals from East and West Africa, this event offers a continental platform for learning, collaboration, and policy advancement.

WHY SPONSOR ISRT 2026?

- ✓ **Targeted Regional Impact:** Shape workforce development and sustainable clinical capacity across East and West Africa where it is needed most
- ✓ **Elite Audience:** Engage directly with nuclear medicine specialists, oncologists, radiopharmacists, and policy-makers from across the continent
- ✓ **Brand Association:** Position your organization alongside leading global health initiatives: WARMTH, ICPO, and the Chris Oyakhilome Foundation
- ✓ **Dedicated Networking:** Exhibit, present, and connect during structured networking sessions and the symposium lunch at Loveworld Medical Centre
- ✓ **Sustained Visibility:** Prominent logo placement on the event website, all printed materials, signage, and the digital delegate program — before, during, and after the symposium.
